

## HEARTOHEART

We empower every child in poverty to rise to their potential

### Who are we?

We are a non-profit organisation striving to build a safe space at every school to help children from struggling communities unlock their potential and gain critical skills to thrive and become leaders in their societies. HeartoHeart has been created out of necessity and with great care. We are a group of selfless and passionate souls who want to explore the unfortunate things happening around us, educate and inspire our children, and connect one heart to another to help bring positive change.
